

Supporting Statement: Dr Daniel Sherlock, GP Clinical Lead, Mitchison Road Surgery

I have been working at Mitchison Road Surgery since 2016 and have been clinical lead for around 5 years. It has been a great privilege to serve the local community and to develop a deeper understanding of our patients and their needs. This has been incredibly rewarding and challenging work and I am very grateful to have had the opportunity.

Since AT Medics took over the surgery in 2015 there has been a period of adjustment and stabilising of the clinical and administrative team. We now have a dependable and hardworking team committed to patient care. From where I stand, I have seen the difference this has made to the care our patients receive. Feedback that I have received from patients is that they are also happy with the changes that have been made in recent years.

Our intention now is that we can continue to strengthen and grow our team and further drive improvements, so that we can provide really excellent care, to positively impact the health and well-being of the local community.

Going forward I intend to work alongside senior management and the team at Mitchison Road to focus on the specific areas that require improvement. My goal is to now gain some real traction with these issues so that we can continue to grow our performance. The specifics of this have been dealt with in the detailed report; here I am underlining that I am committed to this.

Dr Daniel Sherlock
GP Clinical Lead
